

Here is the list of things we need to draw up the traffic control plan:

1. Address and side of street work is on:
2. Type of work to be done:
3. Type of traffic control needed(ex. Lane closure, sidewalk closure, full road closure):
4. Dimensions of work area:
5. How far is the start of work area from nearest intersection?
6. Contact info
7. Note if there are access problems for adjacent property.
8. If work is not completed during work hours what will the after hour conditions be:
9. Work hours
10. How many working days is your project?
